Professional Summary

Dedicated and results-driven software engineering student with a strong foundation in full-stack web development. Proficient in various programming languages and frameworks, with hands-on experience gained through internships and academic projects. Committed to leveraging my skills to contribute to innovative projects and seeking to further develop my expertise through an internship in a dynamic tech environment.

Education

İstanbul Nişantaşı Üniversitesi

Bachelor's Degree in Software Engineering

Oct 2021 - Expected Oct 2025

YOUTHINK Academy powered by Woz U

Full-Stack Software Development

July 2022 - Nov 2022

Learned Skills: MySQL, HTML/CSS, JavaScript, Express.js, Node.js, Bootstrap, Git, GitHub, Sequelize, React

Description: Completed an intensive four-month bootcamp focused on Full-Stack Software Development. Gained hands-on experience with a variety of technologies including MySQL, HTML/CSS, JavaScript, Express.js, Node.js, Bootstrap, Git, GitHub, Sequelize, and React. The program emphasized practical, project-based learning, fostering strong problem-solving skills and teamwork.

Work Experience

Intern at EARTech Information Technology

Istanbul | Dec 2023 - Feb 2024

- Gained exposure to a wide range of technologies such as GitHub, DevOps, XAMPP, and Node.js.

- Acquired practical experience in team-based software development using GitHub, and applied effective DevOps strategies.

- Set up web development environments with XAMPP and leveraged Node.js for application development.

- Developed crucial career planning skills and prepared for future success in the technology sector.

Projects

DevLab - Empowering Web Developers

Jan 2024

Description: DevLab is a robust web development environment designed to elevate the coding experience. It aims to streamline the web development process and empower developers with a suite of powerful tools.

Skills Used: JavaScript, HTML/CSS

Project Link

Java Quiz Management System: Enhancing Learning through Interactive Quizzes

Dec 2022 - Jan 2023

Description: An interactive learning application empowering users to create, administer, and engage in quizzes online. Leveraging OOP principles and a MySQL database backend, it provides a solid foundation for understanding advanced Java concepts.

Skills Used: Java, OOP, Java Swing, MySQL, Workbench

Project Link

Skills

- HTML/CSS, React.js, Express.js, MongoDB, MySQL, Git, GitHub, Java, JavaScript
- Teamworking

Certifications

Full Stack Software Development, Youthink Academy, Nov 2022

Languages

- Arabic (mother tongue)
- English (advanced)
- Turkish (beginner)

Volunteering

Core Team Member, Tech Team

Developer Students | Oct 2023 - Jul 2024

- Collaborated with a diverse team of passionate students to plan, execute, and optimize technical workshops, events, and initiatives aimed at fostering a growth-oriented community.

- Gained hands-on experience with the latest Google technologies, and participated in training sessions led by Google Developer Experts.

- Contributed to project-building activities, enhancing my practical understanding of various tech topics.

- Developed key soft skills such as leadership, teamwork, and communication, while also growing as a professional in the tech industry.
